## The Digital Engineering Awards 2022

The Digital Engineering Awards, in association with ISG, L&T Technology Services, and CNBC TV 18, is a first-of-its-kind venture. We are honoring the achievements of business and technology leaders who have championed the cause of sustainable change within the industry - for a better planet and a better tomorrow.

### The Awards

The Awards are categorized into team and individual awards a.k.a. 'Engineering The Change' and 'Engineer At Heart' respectively - further divided into nine categories.

Innovation and collaboration have been an integral part of our core values since the very beginning. The Digital Engineering Awards is a pioneer attempt to celebrate those whose oeuvre reflects these values above anything else.

To sum it up, we have

**Engineering The Change - Team Awards**

**Engineer At Heart - Individual Awards**

**One Amazing Experience**

in-store for you.

## The Finalists

When we say that they are the personification of the spirit of innovation and the epitome of engineering excellence, we are not exaggerating. These organizations and individuals are making an active difference through that one craft that we all admire - engineering.

The Digital Engineering Awards is not just an awards ceremony, this is a chance to come together and appreciate the feats of human intelligence. It is an opportunity for gaining recognition, networking, getting inspired, and most importantly, a chance to learn first-hand from the polymaths of the tech & engineering world.

We are aiming for the stars and the maiden flight is ready for take-off. Hope to see you on board!
