# The Digital Engineering Awards 2026

The Digital Engineering Awards, in association with ISG, L&T Technology Services, and CNBC TV 18, is a first-of-its-kind venture. We are honoring the achievements of business and technology leaders who have championed the cause of sustainable change within the industry - for a better planet and a better tomorrow.

## The Awards

The Awards are categorized into team and individual awards a.k.a. 'Engineering The Change' and 'Engineer At Heart' respectively - further divided into twelve categories.

Innovation and collaboration have been an integral part of our core values since the very beginning. The Digital Engineering Awards is a pioneer attempt to celebrate those whose oeuvre reflects these values above anything else.

To sum it up, we have

**Engineering The Change - Team Awards**

**Engineer At Heart - Individual Awards**

**One Amazing Experience**

in-store for you.

## The Finalists

When we say that they are the personification of the spirit of innovation and the epitome of engineering excellence, we are not exaggerating. These organizations and individuals are making an active difference through that one craft that we all admire - engineering.

## Engineering The Change (Teams Awards)

### Digital Transformation of the Year:

- **AGCO**  
Driving Digital Transformation: AGCO Parts Shop B2B Initiative
- **Estee Lauder Companies**  
Digital Transformation of the Factory of the Future: A Scalable, End-to-End Manufacturing, Packaging, and Engineering Agenda at The Estée Lauder Companies
- **Maharashtra Cyber**  
Maharashtra Cyber Security Project
- **Mondelez**  
Connected Shopfloor Leaders: Empowering Autonomous Decision Making
- **Rockwell Automation**  
Simplifying Automation System Deployment with DeviceTools™
- **Tenneco**  
Anti roll Bar Bracket Digital Twin

## Digital Engineering Project/Program of the Year:

- **Chevron**  
The Hub for IOGP Part and Equipment (HIPE) Specifications - Transforming Equipment Standardization in the Energy Sector
- **Fiserv**  
API Hub: Engineering Scalable Digital Impact
- **Kaynes Semiconductor**  
Digitally Engineering India's Semiconductor Future
- **McNeilus Companies**  
Model-Driven Digital Assembly: A Scalable Industry 4.0 Approach for Connected Manufacturing
- **Santos**  
Santos next-generation Integrated Production Model (IPM)
- **Shell**  
NextGen IM – Integrated Digital and Information Management Program for Capital Projects and Assets

## Engineering Product of the Year:

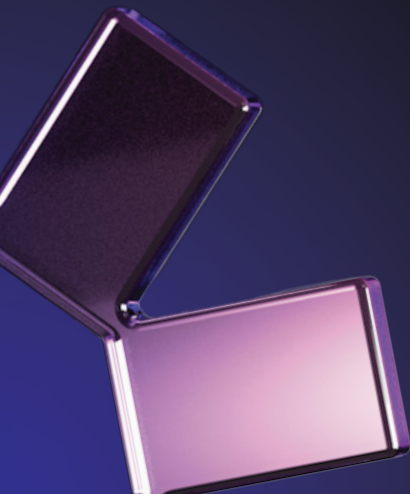

- **Dubai Electricity and Water Authority**  
Omnihub – IoT Terminal
- **Epiroc**  
LinkOA
- **Komatsu**  
Komatsu WX04B – Battery-Electric LHD with Ground-Level Swap and Class-Leading Energy Density
- **Marelli**  
Zone Control Unit (EliteZone platform)
- **Navico Group**  
Simrad® AutoCaptain™ Autonomous Boating System
- **Vanderlande**  
SPOX: Revolutionizing Parcel Sortation Through Smart, Sustainable Digital Engineering

## AI Impact of the Year:

- **AVEVA**  
AVEVA's Industrial AI: Efficient Engineering, Connected to Lifecycle Performance
- **AWS**  
AWS Automated Reasoning Checks
- **Collins Aerospace**  
Leveraging Generative AI to Transform Avionics Development Processes
- **Improzo**  
From Insight to Impact: Engineering Scalable AI for Life Sciences Outcomes
- **Partex. Ai**  
Engineering AI That Delivers Measurable Enterprise Value — Partex.AI's End-to-End Biomedical Intelligence Ecosystem
- **Syntonym**  
Syntonym: Scaling Vision AI with Privacy by Design

## Physical AI Impact of the Year:

- **AMD**  
Powering AI and HPC Performance Through MI Instinct DCGPU
- **Autodesk**  
Project Atom: AI for 3D Scan-Driven Construction Progress Intelligence
- **AutoStore**  
CarouselAI: AI Robotic Piece-Picking For Global Warehouse Fulfillment
- **Etihad Rail**  
Track Inspection with Locomotive - TrackEI
- **Nvidia**  
AI in Action: Scaling Robotics and Autonomous Care in Healthcare
- **Philips**  
Transcend Plus: AI-Driven Cardiovascular Ultrasound for Transforming Cardiac Care

## Excellence in Value Realization:

- **Clear Correct**  
ConnectCare Remote Monitoring System for Healthcare Facilities
- **IKEA - Ingka Group**  
INGKA Group's Process Intelligence & Intelligent Automation  
Department: Engineering Value at Enterprise Scale
- **Interac Corp.**  
Customizable and future-ready verification solution -Interac Verified™  
credential service
- **LivaNova**  
Essenz Affordability Initiative: Transforming Cardiopulmonary Care to  
Save Lives Globally
- **Sephora**  
Engineering the Next Generation of Scalable, Reliable, and Intelligent  
Retail Systems
- **Tele2**  
Intelligent Automation at Tele2

## Top Sustainability Initiative:

- **Delta Flight Products (DFP)**  
Aircraft Water Volume Monitoring
- **Dow**  
Formulation-Level PCF Calculator for Coatings: Empowering Data-Driven Sustainability
- **Honeywell**  
Honeywell EMS & Ionic™ BESS: Accelerating Sustainable Energy Transformation for Island Communities
- **HPE**  
HPE Adaptive Green AI: Reducing AI's Environmental Footprint Through Runtime Optimization
- **Stanley Black & Decker**  
DEWALT Batteries Sustainable Packaging
- **Vestas**  
Vestas - identification and correction of component net weight

## Engineer At Heart (Individual Awards)

### The Distinguished Digital Engineering Leader:

- **Frank van Dijck**, Vanderlande
- **Keisuke Suzuki**, Japan Lifeline (JLL)
- **Prahlad Venkatapuram**, Meta

### The Digital Engineer of the Year:

- **Beena Anand**, Intel
- **Kevin Henderson**, Dow
- **Pankaj Goel**, ExxonMobil

### The Woman Engineer of the Year:

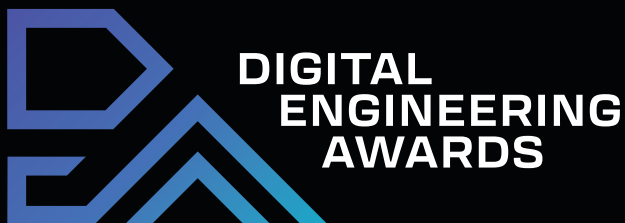

- **Dr. Marry Gunaratnam**, Northern Credit Union
- **Jyotika Athavale**, Waymo
- **Madina Doup**, Shell

### The Innovator of the Year:

- **Gaurav Tripathi**, Partex. Ai
- **Onur Aslan**, Syntonym
- **Rahmat Agung Susantyoko**, Dubai Electricity and Water Authority

### AI Trailblazer of the Year:

- **Abhishek Trigunait**, Improzo
- **Deepika Manglani**, LA times
- **Hari Kapparapu**, Alcon
